**Level: 1°AS Duration: 2 hours** 

## FIRST-TERM EXAMINATION

PART ONE: READING AND INTERPRETING (14 pts)

Read the text and do the activities.

Millions of people in the world make use of the Internet, this international network of computers. This medium will soon change the way we communicate, shop, study, conduct business and publish. The Internet has unlimited possibilities. In an hour's time the users can send an important message to one hundred thousand people, visit the most beautiful places all over the world, buy a computer, look over official documents, study the weather report and even get married.

The most popular way of using the net is e-mail. The system enables the holder to send information to other people in just a second; of course on the condition that the addressee has also access to the Internet. It costs only as much as a local telephone connection and is the fastest in the world.

Businessman use the Internet to obtain the latest information from the Stock Exchange. Scientists acquaint themselves with numerous achievements and novelties in all branches of science. In medicine, it is used in so called tele-surgery. The Internet makes it possible for a doctor to perform surgical operations on patient by remote control. The power of the Internet is infinite.
