i	y card, flash card or memory cartridge is an electronic flash
	ata storage device used for storing digital information. These are
•	used in portable electronic devices, such as digital cameras, mobile
phones, la	ptop computers, tablets, video games, electronic keyboards, and digital
pianos. PC	Cards were the first commercial memory card formats to come out,
but are n	ow mainly used in industrial applications and to connect devices such
<b>as</b> moden	is. Since 1994, a number of memory card formats smaller than the PC $$
Card arri	ved. The desire for smaller cards for cell-phones, and compact digital
cameras o	rove a trend that left the previous generation of "compact" cards
looking b	g. In 2001, 50% of the digital camera markets were captured. By
2005 hov	vever, as computers and laptops became smaller they managed to
make mei	nory cards smaller too.
Since 20	10, new products of Sony which used to use only Memory Stick,
、started r	naking SD memory cards.
	nprehension:
2/ Sony and	cards are electronic device  Compact company make bigger memory cards  nemory cards will not exist anymore
<u>Task two</u> : I	read again and fill in the table.(3pts)
<u>Dates</u>	<u>events</u>
1994	
2005	
Task three :	- I find in the text the synonyms of these words. (1pt)
tools	mobiles =  - I find in the text the Opposites of these words.(1pt)
bigg	er ≠
2.88	

<u>Task one</u> : I read the text and write "true", "false" or "not mentioned". (2pts)
1/ memory cards are electronic device
1/ memory cards are electronic device
2/ Sony and Compact company make bigger memory cards
3/ In 2025, memory cards will not exist anymore
